

The following data is based on Key Performance Indicators. Year 6 data is based on end of Key Stage 2 expectations

2022 National data is for comparison. School data currently depicts performance of the children at the end of the Autumn term based on Teacher Assessed and assessment data. Whilst data is not directly comparable it is the only marker available as to current performance. We expect all percentages to increase throughout the year as children become more attuned to the age related expectations of their year group.

End of Key Stage 2 SATs Analysis 2021/22

Performance data for 2022 should not be directly compared with 2019 and earlier. Nor should comparisons be made between schools. This is because schools may have been affected differently by COVID-19.
